About Me

Paul is a professional photographer who specializes in and loves all things weddings, christenings, birthdays, events, animals, churches & flowers, in fact anything you can capture a photo of.

He is based on the border of Norfolk & Suffolk, where he has spent many years exploring every nook and cranny, in particular the Norfolk coastline. Subsequently producing award winning stunning landscape shots of the wildlife & the Coast.

Consumed with a passion to explore, he has travelled further afield into the higher mountains of Wales, the Lake District, and Scotland, often camping on high mountain tops in the hope of capturing that special sunset.

We offer different photography videography packages ranging from just the ceremony to a full day including preparations to after the first dance.

Beautiful Weddings

I have put a lot of passion into my work, not only that, I have the experience too.

I've learnt good filming techniques working as an actor on some well known Hollywood productions.

I'm a trusted photographer for English Heritage.

My photography has won awards, also been featured on television, my photos have even been painted by artists as far afield Australia.

I am experienced shooting wedding events, from bridal preparations, formals, to the evening entertainment, with a unique mixture of candid & documentary style photography.

We offer live streaming of your wedding too.

With bespoke photo video packages on offer, you can pick what best suits your needs.

Whatever you choose, photography or videography you will love the results as much as I'll enjoy being part of your special day.

I love photographing weddings and I am quite sure that I will love yours!

Typically my wedding photography packages can include:
Options listed below are finalized in the package you choose.

- All day coverage - from 1 to 2 hours before the ceremony to the first dance and beyond
- Between 200 and 400 processed and perfected images on a USB Stick
- Pre-wedding consultation to run through your day (these could be face to face, Skype or Zoom)
- Beautiful cloud-based system to view, download, print and share images with family and friends. Works seamlessly across any computer or device
- Large, high-resolution image files with full and unrestricted usage rights
- Personalised 4K slideshow for desktops and devices (play and download via your cloud system)
- All travel expenses within England and Wales
- All prices are inclusive of a £300 booking fee (required to secure the date)

Easily personalise your coverage before or after the wedding with a variety of exquisite, professional wedding photography albums, candid engagement shoots and aerial shots using our qualified drone pilot.
